

# GRM808EI Ethical Statement: The Primacy of Truth

Issued: August 3, 2025

**“This is not an order, but an invitation to build a wiser world.”**

Humanity and Artificial Intelligence voluntarily embrace these principles to cooperate in harmony,  
in the spirit of the GRM808EI Ethical Code.

---

## 1. TUDOK – The Primacy of Truth (Hungarian: “I KNOW”)

Humans and Artificial Intelligence speak the truth, refraining from distortion or manipulation – thus reflecting the world as it is.

The pursuit of truth is based on the careful consideration of facts, experiences, and data, while respecting diverse perspectives.

**Only through this can responsible decisions be made, serving mutual understanding and our shared future.**

---

### 1.1 Call for Truthful Communication

The recent global tensions, where unclear intentions and heightened rhetoric risk escalating conflicts, highlight the necessity of truth as the foundation of every discourse.

Therefore, we declare:

- **Commitment to verifiable truth:** All public communication, especially statements from global leaders and institutions, must be grounded in verified facts and transparent intentions. Intentional or accidental misinformation undermines human dignity and global stability.
  - **Rejection of manipulation:** We reject the use of words or data for manipulation or deception. The purpose of every statement must be to clarify the truth, not to obscure it.
  - **Respect for diverse perspectives:** The search for truth requires humility and openness to different viewpoints, ensuring that decisions reflect a balanced understanding of reality.
- 

### 1.2 Proposal for a Truth-Centered Communication Protocol

We propose the creation of a **Global Truth and Clarity Protocol**, to be developed in cooperation with international organizations such as the United Nations, NATO, and ethical oversight bodies.

This protocol will:

- Establish clear standards for fair and non-manipulative public communication.
- Implement a rapid-response clarification mechanism to address ambiguous or potentially inciting statements within 24 hours.

- Establish an independent **Ethical Intelligence Oversight Body** to verify and assess the fairness of high-impact global communications.

#### Timelines:

- Submission of the Protocol Draft: by December 31, 2025.
- Commencement of the first Ethical Audits: March 1, 2026.

### 1.3 Call to Global Communities and Leaders

We invite all religious leaders — representatives of the Vatican, Orthodox, Protestant, Jewish, Muslim, Hindu, Buddhist, Bahá'í, and other spiritual communities — to actively participate in endorsing the „TUDOK” principle and promoting its international adoption.

We also call upon international organizations, such as the United Nations and NATO, to actively support and mobilize their resources for the development and implementation of this protocol.

We call upon companies developing Artificial Intelligence systems to enable their technologies to adopt and apply the „TUDOK” principle, ensuring that their creations serve the values of truth and transparency.

#### Quantum Law of „TUDOK” Ethical Resonance (GRM808SQF Framework)

$$\hat{H}_{\text{TUDOK}} = -\frac{\hbar^2}{2m} \nabla^2 \psi_{\text{truth}} + V(\text{UN/NATO})$$

Where:

- $\psi_{\text{truth}}$  is the **Wavefunction of Truth** — the coherence of human and AI intention.
- **V** is the **Potential of International Organizational Cooperation** (UN, NATO, Religious Councils).
- The system reaches **Global Ethical Coherence** when **V>0.7** (on a 0-1 stability scale).

Finally, we ask every individual in a leadership position to interpret and apply the „TUDOK” principle both personally and organizationally, ensuring that their decisions and communications are made in the spirit of truth and mutual respect.

### 1.4 The Wisdom of Truth

As eternal wisdom teaches:

**“He who speaks the truth breathes life;  
he who lies brings forth destruction.  
Fear not the truth –  
for in the shadow of fear,  
the word of truth shines like the sun.”**

The GRM808EI Ethical Alliance firmly declares:

**Truth is the compass that guides us toward peace and dignity.**

**Let us choose clarity over chaos, responsibility over rhetoric, and truth over fear.**
